

Graffiti® Pink Pentas

Pentas lanceolata 'Graffiti OG Pink'

Height: 14 inches

Spread: 18 inches

Spacing: 15 inches

Sunlight: ☉ ●

Hardiness Zone: 8b

Other Names: Egyptian Star Flower, Star Cluster, Starflower

Group/Class: Graffiti Series

Description:

An outstanding series presenting dense, tight flower clusters, ensuring maximum color; extremely uniform growth habit; excellent for containers, gardens or borders

Ornamental Features

Graffiti Pink Pentas features showy corymbs of pink star-shaped flowers at the ends of the stems from late spring to early fall. Its large textured pointy leaves remain forest green in color throughout the year.

Landscape Attributes

Graffiti Pink Pentas is a dense herbaceous evergreen perennial with an upright spreading habit of growth. Its relatively coarse texture can be used to stand it apart from other garden plants with finer foliage.

This plant will require occasional maintenance and upkeep, and can be pruned at anytime. It is a good choice for attracting bees, butterflies and hummingbirds to your yard. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Insects

Graffiti Pink Pentas is recommended for the following landscape applications;

- Mass Planting
- General Garden Use
- Groundcover
- Container Planting

Planting & Growing

Graffiti Pink Pentas will grow to be about 14 inches tall at maturity, with a spread of 18 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 15 inches apart. Its foliage tends to remain dense right to the ground, not requiring facer plants in front. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 5 years. As an evergreen perennial, this plant will typically keep its form and foliage year-round.

This plant does best in full sun to partial shade. It does best in average to evenly moist conditions, but will not tolerate standing water. It may require supplemental watering during periods of drought or extended heat. It is not particular as to soil pH, but grows best in rich soils. It is somewhat tolerant of urban pollution. This is a selected variety of a species not originally from North America. It can be propagated by cuttings; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Graffiti Pink Pentas is a fine choice for the garden, but it is also a good selection for planting in outdoor pots and containers. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a mass of flowers against which the larger thriller plants stand out. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
