Height: 30 inches

Spread: 30 inches

Sunlight:

Hardiness Zone: 9b

Other Names: Yellow Allamanda, Yellow Bell, Buttercup Flower

Description:

This variety is perfect for the potted garden; the same floral form as the vining types in a bushy, contained habit with some cascading; excellent for containers and baskets

Ornamental Features

Golden Butterfly Golden Trumpet features showy clusters of fragrant yellow trumpet-shaped flowers with gold throats at the ends of the branches from early spring to late fall. It has attractive dark green evergreen foliage. The glossy pointy leaves are highly ornamental and remain dark green throughout the winter.

Landscape Attributes

Golden Butterfly Golden Trumpet is a multi-stemmed evergreen shrub with a mounded form. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a relatively low maintenance shrub, and may require the occasional pruning to look its best. It is a good choice for attracting bees and butterflies to your yard. It has no significant negative characteristics.

Golden Butterfly Golden Trumpet is recommended for the following landscape applications;

- Accent
- General Garden Use
- Container Planting
- Hanging Baskets

Planting & Growing

Golden Butterfly Golden Trumpet will grow to be about 30 inches tall at maturity, with a spread of 30 inches. It has a low canopy. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 10 years.

This shrub does best in full sun to partial shade. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It may require supplemental watering during periods of drought or extended heat. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.

Golden Butterfly Golden Trumpet makes a fine choice for the outdoor landscape, but it is also well-suited for use in outdoor containers and hanging baskets. It can be used either as 'filler' or as a 'thriller' in the 'spiller-thriller-filler' container combination, depending on the height and form of the other plants used in the container planting. It is even sizeable enough that it can be grown alone in a suitable container. Note that when grown in a container, it may not perform exactly as indicated on the tag - this is to be expected. Also note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
